

NOTES ON THIS MAP
 Where a coupe boundary shown on a Timber Utilisation Plan Map is mapped to a geographic feature and the actual location of that geographic feature does not match the mapped location, VicForests may move the coupe boundary a maximum of 50m from the mapped boundary to align with the actual location of the intended boundary feature.

The Timber Utilisation Plan has been prepared in accordance with relevant legislation.
 This information was compiled for use at 1:100000. Details may not match accurately if plotted at larger scales.
 Map current as of 27/04/2017

Approved Timber Utilisation Plan (TUP) Map

Goroke

April 2017

Coupes identified for the purposes of timber harvesting operations, sourcing and sale of forest produce (including timber) and/or associated management activities.

While depicted coupes are available for harvest within the period 2017-2019/20, they will not necessarily be harvested during this time.

Legend
