Community Forestry Operations

Community Forestry operations predominately occur in the west of the State. Management of these operations was transferred to VicForests from the former Department of Environment and Primary Industries (DEPI) late in 2014.

Community Forestry operations provide the opportunity for local products to be sourced and utilised by local people and local businesses. The products which result from these operations are often specialised in nature and can not be readily sourced elsewhere. While commercial in nature, these operations are driven by local demand rather than commercial outcomes for VicForests.

Timber Utilisation Plan

VicForests has prepared a Timber Utilisation Plan (TUP) to allow for timber harvesting of areas not subject to the Allocation Order 2013 as amended. Management of timber harvesting in areas outside the Allocation Order 2013 as amended was transferred from the Department of Environment and Primary Industries (DEPI) to VicForests in 2014. The TUP prepared by VicForests is equivalent to the Wood Utilisation Plan (WUP) previously prepared by DEPI.

Specified conditions

VicForests recognises that all planning and operations of VicForests must comply with all relevant laws including, but not limited to:

- i. the Forests Act 1958 (Vic);
- ii. the Conservation, Forests and Land Act 1987 (Vic);
- iii. the Flora and Fauna Guarantee Act 1988 (Vic);
- iv. the Road Management Act 2004 (Vic); and
- v. the Traditional Owner Settlement Act 2010 (Vic); and

Timber Utilisation Plan - April 2017

The Timber Utilisation Plan is developed giving consideration to long-term resource sustainability as outlined in the document "Review of Commercial Forestry Management in Western Victoria", DEPI, 2013.

The objective of the TUP documents is to provide details of the location and approximate timing of proposed timber harvesting operations and associated management activities.

As this is the first Timber Utilisation Plan, it includes a large number of coupes which are being transferred from current Wood Utilisation Plans.

Table of Contents

1. Glossary
2. Silvicultural intent
3. Summary of Timber Utilisation Plan - April 2017
4. TUP Schedule of coupes - April 2017
5. Coupe number index - tables to allow identification of altered coupe numbers

1. Glossary

Coupe – A contiguous area of forest of variable size, shape and orientations from which timber is harvested or in which other forest management activities may be undertaken.

Coupe Address – A unique 12-digit reference number that indicates the location of an individual coupe.

Gross Area/ Coupe Boundary - The area within which operations will be conducted. It is represented spatially by the 'proposed coupe boundary' that is mapped within CENGEA Forest Planner and approved for inclusion on a Timber Utilisation Plan. This area may include sections which are not expected or not authorised to be harvested (e.g. to align the boundary to a geographical feature such as a road).

Silviculture System – Describes the method that will be used to regenerate (and hence to harvest) the coupe.

Planning type – Forest Management – operations planned to allow utilisation of product which may result from natural events (e.g. storm damage) or to complete works and/ or utilise timber associated with forest management activities (e.g. hazardous tree removal from planned burning operations).

Planning type – Standard – Coupes planned and harvested using standard silvicultural systems.

Timber Utilisation Plan / TUP – A Timber Utilisation Plan is a list of areas and corresponding maps, outlining where timber harvesting and regeneration works are authorised to be completed by VicForests. Timber Utilisation Plans can fall within any Forest Management Area (FMA) but may not incorporate an area captured by the Allocation Order 2013 as amended.

Wood Utilisation Plan / WUP – A Wood Utilisation Plan is a list of areas and corresponding maps, outlining where timber harvesting and regeneration works are authorised to be completed as prepared by government departments (most recently, DEPI – the Department of Environment and Primary Industries). In addition to commercial operations, WUPs also included areas for domestic firewood collection and other forest works to be completed by the Department. Wood Utilisation Plans can fall within any Forest Management Area (FMA) but may not incorporate an area captured by the Allocation Order 2013 as amended.

2. Silviculture categories

Silvicultural treatments applied may be selected from a number of different silvicultural systems to allow the most appropriate treatment to be selected based on forest type and on operational, regeneration and forest health requirements.

To adequately cover the required locations, low-intensity salvage and forest management operation coupes can be large in area and will usually overlap a number of coupes planned with alternate silvicultural intent.

Silvicultural intent	Silvicultural systems may be selected from (or utilise a combination of) the following:	Planning type
Even-aged stand management	CFE – Clearfall extraction STR – Seed tree retention RRH – Regrowth retention harvesting CFS – Clearfall salvage SH1 – Shelterwood one	Standard
Multi-aged stand management	THA – Thinning from above THB – Thinning from below STS – Standard single tree selection GSE – Group/ gap selection or creation UNE – Uneven-aged SH2 – Shelterwood two	
Specialty timber selection	STS – Low intensity single tree selection	
Ground collection	FWF – Firewood - fallen FPR – Fallen product recovery	
Reforestation <i>Re-establishment of forest cover.</i>	REF – Reforestation	
Forest Management Operations 1. <i>Removal and/ or utilisation of timber resulting from forest management operations (e.g. hazardous tree removal).</i> 2. <i>Salvage of small areas/ individual trees (e.g. from storm damage)</i>	HTR – Hazardous tree removal FWF – Firewood - fallen FPR – Fallen product recovery LIS – Low intensity salvage	Forest Management

3. Summary of Timber Utilisation Plan

Summary of number and hectares of coupes by Forest Management Area

3.1 Number of coupes by silvicultural intent - standard planning

Forest Management Area	Multi-aged stand management	Specialty timber selection	Even-aged stand management	Totals
Benalla/ Mansfield			14	14
Bendigo	120			120
Central Gippsland	9			9
East Gippsland	23			23
Horsham	115			115
Midlands	116		18	134
Mid-Murray	22			22
Otway	68	46		114
Portland	15			15
Tambo	6			6
Totals	494	46	32	572

Note: The figures above contain a number of overlapping areas.

3.2 Number of hectares (gross area) by silvicultural intent - standard planning

Forest Management Area	Multi-aged stand management	Specialty timber selection	Even-aged stand management	Totals
Benalla/ Mansfield			475	475
Bendigo	8616			8616
Central Gippsland	632			632
East Gippsland	1670			1670
Horsham	13250			13250
Midlands	5181		351	5533
Mid-Murray	1885			1885
Otway	2449	6690		9140
Portland	1121			1121
Tambo	281			281
Totals	35085	6690	826	42602

Note: The figures above contain a number of overlapping areas.

3.3 Number of coupes - forest management operations

Forest Management Area	Forest management operations
Benalla/ Mansfield	
Bendigo	
Central Gippsland	
East Gippsland	
Horsham	1
Midlands	14
Mid-Murray	
Otway	
Portland	
Tambo	
Totals	15

Note: The figures above contain a number of overlapping areas.

3.4 Number of hectares (*gross area*) - forest management operations

Forest Management Area	Forest management operations totals
Benalla/ Mansfield	
Bendigo	
Central Gippsland	
East Gippsland	
Horsham	3484
Midlands	4244
Mid-Murray	
Otway	
Portland	
Tambo	
Totals	7729

Note: The figures above contain a number of overlapping areas.

4. VicForests' Timber Utilisation Plan - for the period 2017 – 2019/20

Coupes identified for the purposes of timber harvesting operations, sourcing and sale of forest produce (including timber) and /or associated management activities. While listed coupes are available for harvest within the period 2017-2019/20, coupes will not necessarily be harvested during this time.

VicForests' Region	Forest Management Area	District	Coupe Address <i>(sorted smallest to largest)</i>	TUP modification type	Silvicultural intent	Gross area (hectares)	Map Sheet

5. Coupe number index

Tables to allow identification of altered coupe numbers.

Incorporation of coupes from existing Wood Utilisation Plans (WUPs) into VicForests' planning systems has necessitated changes to a number of coupe numbers. The tables below are provided to assist in the identification of any coupes which may be of particular interest.

Previous coupe number (WUP) <i>(sorted smallest to largest)</i>	New coupe number (TUP)
024-999-0001	024-999-0002
028-999-0001	028-999-0101
029-510-0002	029-510-0005
